

Employee Retention Tax Credit (ERC)

There's still time to claim the COVID-19 employee retention tax credit. 40% of Businesses are not aware of the CARES Act ERC and only 15% think their business qualifies. If your business has been affected by the pandemic, you may qualify. RPA will put you in touch with a qualified team to help you navigate the complex rules.

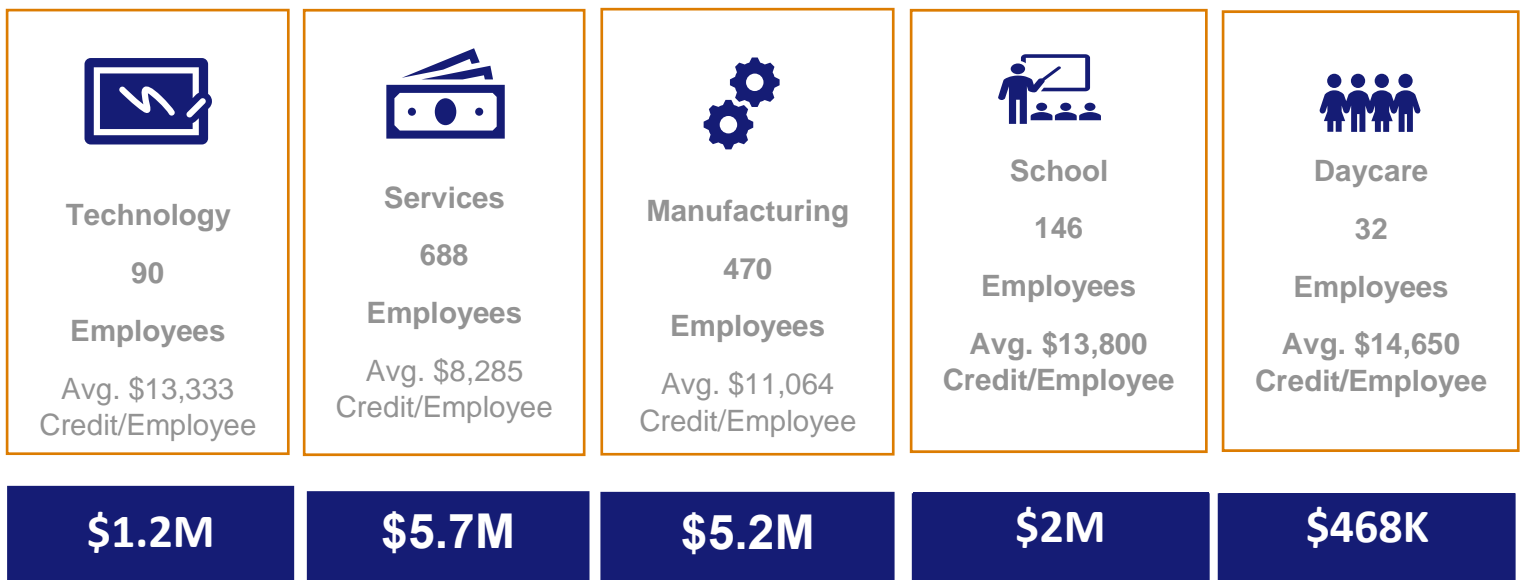

WHAT IS THE ERC?

The Employee Retention Tax Credit (ERC) is a payroll tax credit that can potentially eliminate your business payroll tax or generate a cash refund. For most businesses this is one of the largest federal financial incentives available, providing up to \$26,000 per employee. Eligible businesses can file retroactive claims for wages paid in prior tax quarters. Businesses can now claim this credit even if they took part in the Paycheck Protection Program (PPP) or other Covid relief.

HOW DO I FIND OUT IF MY BUSINESS QUALIFIES?

RPA works very closely with, and shares a number of clients with PayBridge, an independent payroll provider based in Strongsville, OH. PayBridge has partnered with Synergi Partners, the largest privately owned tax credit and incentive consulting company in the country. Operated by tax credit industry veterans, they specialize in identifying and processing federal and state credits for employers across the United States. Synergi Partners has an experienced team which has developed a proprietary methodology to maximize the tax credits you deserve in an efficient manner. The Synergi team does all of the heavy lifting.
